

The dishes are inspired by Wljjland, our estate and the immediate surroundings. Chef Guido Le Bron de Vexela takes great pride in working with various local suppliers.

Wljjland

Vegetables, fruit and herbs are grown on the Wljjland. These are used in the dishes served in Les Salons restaurant. The vegetable garden of Château St. Gerlach is maintained with the help of volunteers, which is also why it is called the "Wljjland". A garden for all of us.

Butcher's shop Kusters Margraten

Butcher's Kusters is a household name in South Limburg. Animal-friendly handling and a conscious, sustainable ways of dealing with the environment are of paramount importance at butcher's Kusters high priority.

Sjevraoje

Sjevraoje goat's cheese is made from organic milk. Its unique taste is a result of the quality of the milk, the right balance in the use of ripening cultures and the ripening process.

Chocolatery

At Pralinea, they use exciting flavor combinations with a special look and feel. They work with pure ingredients and chocolates, and together with the chef we created our bonbon.

Koos Bakery

To a large extent, Koos still forms the bread dough by hand after it has been carefully weighed. A labor-intensive work process, but the result is worth it.
